

QUESTIONS ABOUT **Preparing Images**

← **LOW LEVEL THINKING SKILLS**

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

Can you list three ways you can edit an image?

COMPREHENSION

Can you explain what is meant by optimising?

APPLICATION

How would you apply what you've learned to develop a website?

ANALYSIS

Why do you think it is better to edit and optimise your images before adding them to a website?

SYNTHESIS

How would you test if your graphics are suitable?

EVALUATION

How would you evaluate your graphics?

Blank response area for Knowledge question.

Blank response area for Comprehension question.

Blank response area for Application question.

Blank response area for Analysis question.

Blank response area for Synthesis question.

Blank response area for Evaluation question.

QUESTIONS ABOUT **Banner Creation**

← **LOW LEVEL THINKING SKILLS**

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

Can you list three tools that help you create a banner?

COMPREHENSION

What is the main idea of a banner?

APPLICATION

How would you use the banner on your webpage?

ANALYSIS

Can you identify the different properties you can change when you edit text?

SYNTHESIS

What would happen if you did not maintain the proportions of an image you import into your banner?

EVALUATION

Would it be better if a banner was transparent?

Empty response box for Knowledge question.

Empty response box for Comprehension question.

Empty response box for Application question.

Empty response box for Analysis question.

Empty response box for Synthesis question.

Empty response box for Evaluation question.

← **LOW LEVEL THINKING SKILLS**

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

COMPREHENSION

APPLICATION

ANALYSIS

SYNTHESIS

EVALUATION

Can you list all the different types of multimedia files you might want in a webpage?

What you explain what is meant by 'converting the file format'

What approach would you use to convert a video file?

Why do you think there are different file formats?

What can be done to minimise the compatibility issues for web users trying to access multimedia on a webpage?

Would it be better every everyone used the same file format?

Empty box for response to Knowledge question.

Empty box for response to Comprehension question.

Empty box for response to Application question.

Empty box for response to Analysis question.

Empty box for response to Synthesis question.

Empty box for response to Evaluation question.

QUESTIONS ABOUT

Getting Started With Dreamweaver

← LOW LEVEL THINKING SKILLS

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

COMPREHENSION

APPLICATION

ANALYSIS

SYNTHESIS

EVALUATION

Can you list two different Dreamweaver modes?

What is the main idea of defining a site?

What approach would you use to create a new webpage when you've defined your site?

Can you identify the different parts of the Dreamweaver interface?

What would happen in Dreamweaver if you deleted a file from your file area (when you've set up your site)

Can you assess the value of defining a site?

Blank response area for Knowledge question.

Blank response area for Comprehension question.

Blank response area for Application question.

Blank response area for Analysis question.

Blank response area for Synthesis question.

Blank response area for Evaluation question.

QUESTIONS ABOUT AP Divs

← LOW LEVEL THINKING SKILLS

→ HIGH LEVEL THINKING SKILLS

KNOWLEDGE

How would you explain how to set up an AP DIV?

COMPREHENSION

How would you compare using AP Divs to setting up a webpage by using only alignment tools?

APPLICATION

How should you organise you webpage using AP Divs?

ANALYSIS

Why do you think AP Divs were invented?

SYNTHESIS

What would happen if you viewed a webpage made with AP Divs on a tablet?

EVALUATION

Can you assess the value of AP Divs?

QUESTIONS ABOUT Getting Started With Dreamweaver

LOW LEVEL THINKING SKILLS

HIGH LEVEL THINKING SKILLS

KNOWLEDGE

Can you recall how to add an image to a webpage?

COMPREHENSION

What is the main idea behind a rollover?

APPLICATION

How would you apply what you have learned about rollovers to the website you will be creating?

ANALYSIS

Why do you think that you need to maintain proportions of images?

SYNTHESIS

If you have already been given an image to use, how could you ensure it is suitable for a webpage?

EVALUATION

Can you assess the importance of ALT tags?

Empty box for recording answers to the Knowledge question.

Empty box for recording answers to the Comprehension question.

Empty box for recording answers to the Application question.

Empty box for recording answers to the Analysis question.

Empty box for recording answers to the Synthesis question.

Empty box for recording answers to the Evaluation question.

QUESTIONS ABOUT **Managing Multimedia**

← **LOW LEVEL THINKING SKILLS**

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

COMPREHENSION

APPLICATION

ANALYSIS

SYNTHESIS

EVALUATION

Can you list three file types you might need to add to a website?

What you explain what is meant by embedding?

What approach would you use to ensure files are in the correct format?

What is the cause of the difficulties surrounding embedding multimedia files?

What could be done to minimise the problems associated with embedding multimedia files into a webpage?

How would you evaluate the different methods of ensuring a user can play a multimedia file from/on a webpage?

Empty box for response to Knowledge question.

Empty box for response to Comprehension question.

Empty box for response to Application question.

Empty box for response to Analysis question.

Empty box for response to Synthesis question.

Empty box for response to Evaluation question.

QUESTIONS ABOUT Navigation

← LOW LEVEL THINKING SKILLS

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

COMPREHENSION

APPLICATION

ANALYSIS

SYNTHESIS

EVALUATION

Can you list the different ways you can link to parts of a webpage and other webpages?

How would you compare an internal hyperlink to an external hyperlink?

How could you make use of multiple anchors in a webpage?

What is the function of an email hyperlink?

How would you improve a Spry menu bar?

What judgement would you make about the use of hotspots over a large image instead of a navigation bar?

Empty response box for Knowledge level.

Empty response box for Comprehension level.

Empty response box for Application level.

Empty response box for Analysis level.

Empty response box for Synthesis level.

Empty response box for Evaluation level.

QUESTIONS ABOUT Spry

← LOW LEVEL THINKING SKILLS

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

Can you list three types of Spry?

COMPREHENSION

Can you explain what happens when you use a Spry and then save your webpage?

APPLICATION

How would you organise information in a Spry?

ANALYSIS

What is the relationship between Spry and CSS?

SYNTHESIS

Suppose you could design a new type of Spry - what would you create?

EVALUATION

How would you decide what information should go into a Spry?

Blank response area for Knowledge question.

Blank response area for Comprehension question.

Blank response area for Application question.

Blank response area for Analysis question.

Blank response area for Synthesis question.

Blank response area for Evaluation question.

QUESTIONS ABOUT Coding

← LOW LEVEL THINKING SKILLS

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

What is a hexadecimal colour code and what symbol must precede one?

COMPREHENSION

What is the main of idea of the heading tags?

APPLICATION

How would you use HTML and CSS together to create a webpage?

ANALYSIS

How would you categorise the different types of tags?

SYNTHESIS

What would happen if you didn't write the HTML correctly?

EVALUATION

When you write or edit HTML or CSS are you coding?

QUESTIONS ABOUT TEMPLATES

← LOW LEVEL THINKING SKILLS

HIGH LEVEL THINKING SKILLS →

KNOWLEDGE

How would you describe a template?

COMPREHENSION

What is the main idea of a template?

APPLICATION

How would you use a template?

ANALYSIS

Can you justify the use of a template?

SYNTHESIS

How would you test a template?

EVALUATION

How would you rate the use of a template?
