

STEP 1 – CREATING YOUR WEBPAGE

- Click on **File** then then **New**

- Make sure that HTML is selected and then the name of your website in the **Title** section (it is what you see at the top of the browser window)

- Where it says **Attach CSS** press the **link** button and choose the CSS file you made
- Make sure **Link** is selected next to **Add as**
- Press **Create**
