

# App Lab Cribsheet Design Toolbox

**Design screens**

**Add new screens**

**Drag the tool left to add it**

**Drag the tool right to remove it**

**Change the background style**

**Use this to add text e.g. titles**

**Add an image / icon e.g. circle**

**Elements**

The Design Toolbox interface includes a 'Theme' dropdown set to 'Default', a 'Run' button, and a list of elements: Button, Text Input, Label, Radio Button, Checkbox, Image, Canvas, Screen, Text Area, Chart, Slider, and Photo Select. Callouts provide instructions on how to interact with these elements.

Don't forget to rename your project here

Workspace

Click on an element or choose it from the dropdown below to edit its properties. Create code in Events.

PROPERTIES EVENTS

**Click to add an image/icon**

**...or choose a pre-made icon**

**You can upload an image from your computer...**

**Choose Assets**

My Files Link to Image Icons

Your assets will appear here. Click "Upload File" to add a new asset for this project.

Upload File

**Icons**

**icon color**

#ec1100

**Once you've chosen an icon you can change its colour**

**id**

button\_start

**For each element you create, always give it a memorable and identifiable name!**

The Properties panel shows a 'Choose Assets' dialog with an 'Upload File' button. Below it is an 'Icons' palette. The 'icon color' property is shown with a color picker set to #ec1100. The 'id' property is shown with the value 'button\_start'.
